## Conference on Emerging Technologies in Real Estate & Construction Sustainable Infrastructure: Building a Future

*5<sup>th</sup> March 2021 from 1000 Hrs – 1230 Hrs at CII Hive (Virtual Platform)*

The theme of the International exhibition and conference is “**Sustainable Infrastructure: Building a Future**”. Keeping the project sites open and running, during the pandemic, has accelerated the use and demand of technology adoption in all aspects of the construction and the Real estate sector for maximizing efficiency, faster implementation and cost reduction. The conference will aim to discuss these new trends and technologies that are emerging in the construction and real estate sector. There will also be a focus on the need of Urban mobility and green technologies for the future.
